

## TREE INSPECTION REPORT

<b>Report number:</b> 1037736	<b>Site address of tree:</b> 14 Milners Road, Yarra Junction	
<b>Date of inspection:</b> 30/03/2022	<b>Melway:</b> 288 F11	
<b>Name:</b> [REDACTED]	<b>Address:</b> 14 Milners Road, Yarra Junction	<b>Phone:</b> [REDACTED]
<b>Recommended action:</b> Trees 1-4, no works		
<b>Reasons for recommended action:</b> All 4 trees are Silver-leaved Stringybarks. They have grown in a cluster with irregular form as is typical of the species. In an effort to grow towards the light, some of the trunks are leaning; however, none appear unstable. Tree 1 has a strong lean over the driveway; however, is well sheltered and failure is unlikely. Tree 2 has been pruned and has a full canopy, none of the branches appear likely to fail. Tree 3 leans over the private property boundary a couple of metres but does not overshadow the house. Tree 4 is large and has had several large failures. None of the branches at this stage appear likely to fail. Spoke briefly with resident, she would like them all removed.		
<b>Risk &amp; works priority:</b> Low	<b>Site conditions &amp; equipment required:</b>	

**Map:**

<b>Age:</b> Mature Mature Mature Mature		<b>Common name:</b> Silver-leaved Stringybark Silver-leaved Stringybark Silver-leaved Stringybark Silver-leaved Stringybark		<b>Botanical name:</b> <i>E. cephalocarpa</i> <i>E. cephalocarpa</i> <i>E. cephalocarpa</i> <i>E. cephalocarpa</i>	
<b>Tree No.</b>	<b>Height (m)</b>	<b>Spread (m)</b>	<b>DBH (mm)</b>		
1	10	9	400		
2	15	10	500		
3	17	10	600		
4	16	12	750		
<b>Roots condition:</b> Not observed Not observed Not observed Not observed			<b>Trunk condition:</b> Fair, on a significant lean Good Good Good		
<b>Limbs condition:</b> Fair Fair, minor deadwood Fair, moderate property overhang Fair, previous failures evident			<b>Foliage condition:</b> Good Good Good Good		

Amenity value: Moderate		<b>Habitat:</b> <i>Part of habitat corridor:</i> No <i>Hollow bearing:</i> No <i>Native Fauna Use:</i> None observed
<b>Distance to building (m):</b> ~8-11	<b>Do branches overhang buildings?</b> No	<b>Targets</b> Driveway, service wire, road, parked cars, front yard, house (major failure)
