## **Public Submission - Special Charge Scheme**

I wish to make a written submission in support of the Special Charge Scheme for road improvement works for Old Coach Road (from 12 to 37), Montrose.

This will result in a range of improvements for road users and residents:

- road safety, particularly at corners near numbers 21, 29 and 33
- reduction/elimination of dust during dry weather impacting properties, especially on the downhill side of the road
- consequent cleanliness of rainwater collection for the properties (most of which are dependent on this as they are not connected to town water)
- reduction in road maintenance/treatment which is required three to four times each year
- driveway access which is impacted by the road level which increases after each treatment
- better drainage which will reduce impact of storm events on properties on the downhill side of the road

While not requesting to be heard in support of this submission, I plan to attend the Council meeting where the submissions are considered if there are questions in respect to this.

Yours Sincerely,
