**Public Submission - Special Charge Scheme**

I wish to make a written submission in support of the Special Charge Scheme for road improvement works for Old Coach Road (from 12 to 37), Montrose.

This Scheme will have many benefits and I am fully supportive of it.

- The removal of Dust during Summer which pollutes our drinking water as we only have water tanks with water from our roofs.
- There have been many accidents resulting from the loose gravel surface - "Through traffic" should be stopped or severely discouraged by traffic management devices.
- Costs to maintain the road and drainage will be reduced significantly.

Yours sincerely
