DISCUSSION

Purpose and Background

This Report recommends that Council declare a Special Charge Scheme for the construction of Kirkham Road (between Retreat Road and Courtneys Road), Belgrave South, funded from the Federal Government's Roads to Recovery allocation in Council's 2022/23 Capital Expenditure Program and Landowner Contributions.

Kirkham Road (between Retreat Road and Courtneys Road), Belgrave South is not included on the list of roads endorsed by Council for construction under the Roads for the Community funding program, as other roads across the municipality were prioritised higher than this road. The funding available under the Roads for the Community program is only sufficient to fund the improvement of approximately 180 kms of Council's 740 km unsealed road network.

Council's contribution to the project is estimated to be \$38,349 (24% of project cost). This contribution comprises \$29,979 for Council's standard 20% contribution, in accordance with Council Policy and \$8,370 for works abutting the Council Reserve (1A Retreat Road). Landowners will fund the balance of road construction costs

Consultation has occurred with landowners of Kirkham Road (between Retreat Road and Courtneys Road), Belgrave South for the construction of the road as a Special Charge Scheme.

Council at its meeting of 24 May 2022 resolved of its intention to declare a Special Charge in accordance with the provisions of section 163 of the *Local Government Act 1989 (version 159)*.

In accordance with requirements of the *Local Government Act 1989 (version 159)* Council must now consider any submissions received and determine whether to adopt,

amend or abandon the scheme. If Council adopts or amends the scheme, the special charge may then be declared.

A breakdown of Council costs and individual property apportionment charges are listed in Attachment 1 - Schedule of Costs per property. These items were detailed in the Intent to Levy a Special Charge Report, which was considered by Council at its meeting of 24 May 2022.

APPLICABLE PLANS AND POLICIES

The construction of local roads as a Special Charge Scheme meets the *Council Plan 2021-2025* strategic objective of Quality Infrastructure and Liveable Places. Local road construction also has benefits related to the strategic objective of a Vibrant Economy, Agriculture and Tourism.

Council's *Special Rate and Charge Policy for Infrastructure Improvements* sets out in detail the procedures for managing Special Charge Schemes.

RELEVANT LAW

Special Charge Schemes for Infrastructure Improvements are implemented under the Special Charge provisions of the *Local Government Act 1989 (version 159)*.

Council when considering a Special Charge Scheme is required to advertise the proposal and invite submissions from the public as prescribed in Section 223 of the *Local Government Act 1989 (version 159)*.

Implementation of the works will be carried out under Sections 8 and 10 of the Local Government Act 2020 which identifies the role and powers of Councils.

SUSTAINABILITY IMPLICATIONS

Economic Impacts

Construction of the road would be undertaken utilising contractors from Councils Road Construction and Associated Works Panel. This panel was established with a majority of local smaller contractors which will help provide economic support to these local businesses.

Social Impacts

Special Charge Schemes for road construction require sizeable contributions from abutting landowners. These contributions can lead to social and economic impacts for affected landowners. Council's *Special Rate and Charge Policy for Infrastructure Improvements* notes that those landowners with a demonstrated financial hardship may apply for assistance in accordance with Council's *Rate Recovery and Financial Hardship Policy*.

Environmental Impacts

The proposed works will not require vegetation removal. All works will be completed in compliance with *Council's Code of Environmental Practice* for Works on Council Managed Land.

A Cultural Heritage Management Plan is not required for the works. The works will enhance environmental amenity, through the reduction in dust.

The sealing of local roads will assist in reducing the impacts to the road condition from increased storm events, predicted as a result of climate change. Unsealed roads greatly deteriorate in condition following storm events creating an increased stress on service delivery for the unsealed road network.

Consideration is also given to the rate of flow of water into local creeks and impacts to water quality following the sealing of local roads, sustainable treatment is prioritised, where possible within the catchment with measures such as grassy swales implemented as conditions allow.

As part of the construction of local roads, Council officers are continually investigating the increased use of recycled materials. In utilising recycled materials, officers consider the availability and location of materials, the quality of materials and overall cost to the project.

COMMUNITY ENGAGEMENT

Landowner Consultation

A letter was mailed to landowners inviting them to view an on-line briefing presentation detailing the standard of works and the statutory processes required to implement a Special Charge Scheme. The briefing presentation is available for viewing on Council's website.
